

ATTENTION GENERAL CONTRACTORS

The Montana Department of Fish, Wildlife & Parks does not keep lists for either design services or construction services.

For construction services, we also have the ability to directly hire contractors. The limit for this method is for contracts that are less than \$25,000. For projects in the range of \$25,000 to \$75,000, we can do a limited solicitation, where we select three or more contractors to provide bids. Any project over \$75,000 requires a publicly advertised solicitation in the newspaper serving the County Seat of where the project takes place and in the Helena Independent Record. Also, contract documents for advertised projects are sent to area Builder's Exchanges. To be eligible to construct projects for Montana Fish, Wildlife & Parks, contractors must meet the minimum requirements established in state construction law.

If you feel you meet the requirements for our direct solicitation for either design services or construction services, you can let us know by sending an e-mail that includes your contact information (location is important) and general areas of expertise to Paul Valle, Fish & Wildlife Division, and Kelly Williams, Parks Division. We will forward that information to the appropriate project manager. If you have any questions, do not hesitate to ask. Thank you for your interest in working for Montana Fish, Wildlife & Parks.
